

## What our students are saying:

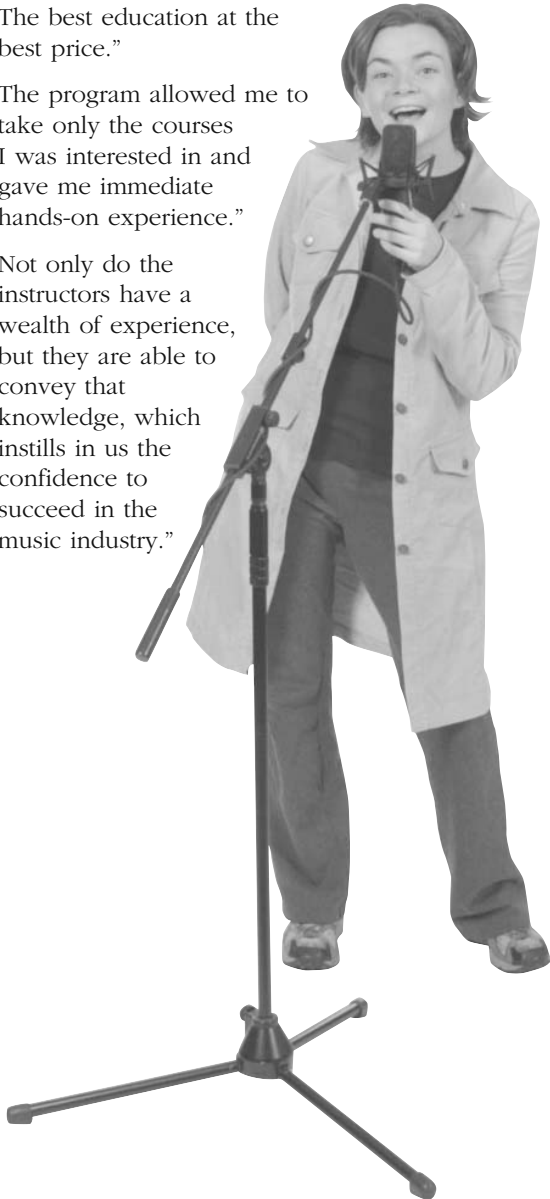

"I've learned more in the first six weeks than I expected to learn in a whole year."

"I love the fact that the instructors are very patient and are willing to take the time to enrich minds."

"The best education at the best price."

"The program allowed me to take only the courses I was interested in and gave me immediate hands-on experience."

"Not only do the instructors have a wealth of experience, but they are able to convey that knowledge, which instills in us the confidence to succeed in the music industry."

Cooperative Education work experience in Music Technology can be an important addition to a student's formal classroom work. Co-op courses, if appropriate, may substitute for technical courses up to 6 credit hours with the prior approval of the Program Coordinator/Dean and Co-op Director. All Co-op work must have Program Coordinator/Dean and Co-op Director approval. The Career Employment Center will provide the correct course numbers. Students participating in Cooperative Education are encouraged to work a minimum of two terms. For more information about Co-op opportunities, please contact the Career Employment Center at 615-353-3248.

# MUSIC TECHNOLOGY

# Music Technology at Nashville State Community College

## Technical Certificate

Whether you are considering a new career in the music business, or you are a professional seeking to expand your knowledge in other areas, the Music Technology program at Nashville State Community College is a great place to begin.

## The Faculty

More than just teachers, our faculty members are successful, practicing professionals who are actively involved in the music business on a daily basis. You'll enjoy a rare opportunity to learn from this group of men and women as they share the experiences and insights of years in the recording and music industries.

Guest lectures featuring industry professionals are a regular part of some courses. This feature gives students a chance to discuss technical and business issues with a variety of experts and creative individuals.

## The Facilities

Our recording studios and music/computer labs feature a huge selection of state-of-the-art analogue and digital equipment, a wide variety of acoustic environments, musical instruments and systems selected and designed to meet the particular needs of students in each of our classes.

## The Students

Each semester, students of all ages and skill levels enter our Music Technology program. Regardless of your skill level, you'll never feel out of place at Nashville State. Take one class...or take them all. Either way, you'll be assisted on a personal basis by our faculty and staff.

## MUSIC TECHNOLOGY Technical Certificate

*Total Certificate Requirements: 30*

**Note:** Any 10 Music Technology courses fulfill the required 30 credit hours to earn the Technical Certificate.

The primary purpose of this certificate is to prepare students for employment following graduation from Nashville State. However, some students may wish to continue in a baccalaureate program either immediately or in the future. If you plan to transfer to a four-year program after leaving Nashville State, consult the department head for a specialized program of study. *Failure to do so could result in a loss of credits in the transfer process.*

*All of the courses in the Music Technology certificate apply toward Nashville State Community College's A.A.S. degree in General Technology.*
