MECH 1100 Electrical Components and Electronics Fundamentals

Course Information:

Course Title: Electrical Components and Electronics Fundamentals  
Credits: 4  
Class Hours: 8:00 -12:00

Course Description:

A study of the basic electrical components in a mechatronic system. Topics include basic functions and physical properties of electrical components; the systematic flow of energy and measurement of components; troubleshooting techniques and strategies to identify, localize and correct malfunctions; and systematic preventive maintenance and electrical component safety. Technical documentation such as data sheets, schematics, timing diagrams and system specifications are also covered.

Instructor Information:

Name:  
Email:  
Office Phone:  
Office Location: Classroom  
Office Hours:

Required Textbook(s) & Other Materials:

Textbook(s): T. L. Floyd and D. M. Buchla “Electronic Fundamentals, Circuits, Devices, and Applications”,  
Office Hours – 7:30 to 8:00 AM and 11:45 to 3:00 PM  
ISBN: 978-0-13-507295-0

Once enrolled, all students should verify that they have the correct textbook and materials information by consulting the D2L/NS Online shell for the course. If you are registered with the Access Center and require an alternate format for the textbook and other course materials, please contact the Access Center at 615-353-3721, 615-353-3741, or accesscenter@nscc.edu.
**Course Outcomes:**
1. To analyze simple electronic circuits
2. To understand and be familiar with basic electrical components such as capacitors, diodes, transistors, relays, and other components, and to explain their role in a mechatronic system.
3. To understand the physics and applications of various electrostatic and electromagnetic sensors and components.
4. To understand the roles that electric components play in a mechatronic system.
5. To use and analyze technical documentation such as datasheets and wiring schematics.
6. To perform and be familiar with troubleshooting techniques of electrical circuits.
7. To understand and perform work in accordance with electric safety rules and procedures.

**Course Competencies:**
- Describe what comprises a mechatronic system or module.
- Explain the role of various electrical components within a given system or module.
- Trace and describe the flow of energy in a given mechatronic system or subsystem.
- Describe the basic physical properties of electrical components.
- Read, analyze and utilize the technical documents such as data sheets, timing diagrams, operation manuals, schematics, etc. for a mechatronic system.
- Carry out measurements on electrical components in a mechatronic system.
- Correctly localize, identify and document causes of malfunctions in electrical components, based upon the technical documentation.
- Where possible correct malfunctions, or correctly identify the expertise required to correct a malfunction.
- Apply safety rules while working on the system.
- Transfer the knowledge learned from one system to another system.

**Topics to Be Covered:**

**Course Schedule**

<table>
<thead>
<tr>
<th>Week/Meeting</th>
<th>Topics/Chapters</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Mechatronics System overview safety in the lab 1,2</td>
</tr>
<tr>
<td>2</td>
<td>Ohms Law, Trouble Shooting Circuits 2,3</td>
</tr>
<tr>
<td>3</td>
<td>Series and Parallel Circuits 4</td>
</tr>
<tr>
<td>4</td>
<td>Wheatstone Bridge, Reed Switches 5 (sec 1-5)</td>
</tr>
<tr>
<td>5</td>
<td>Relays, Current Divider and parallel Circuits 5 (sec 6-8)</td>
</tr>
<tr>
<td>6</td>
<td>Combination parallel and series circuits 6(sec 1-4)</td>
</tr>
</tbody>
</table>
7  Power applications, solenoids  6 (sec 5-9)
8  Electromagnetism, induction  7 (sec 1-5)
9  DC Motors and Generators 7 (sec 6-7)
10 AC Circuitry, AC Voltage 8 (sec 1-5)
11 AC Motors 8 (sec 6-9)
12 Capacitors, Transistors 9 (sec 1-5)
13 Transformers, Delta and Wye connections Chapter 14
14 Review, troubleshooting problems
15 Final Exam

Course Assessments:
Quizzes: 25% (open book/formula reference allowed)
Mid Term Exam: 25% (open book /formula reference allowed)
Lab work, Homework, Worksheets, and Project(s): 25%
Final Exam: 25% (open book/formula reference allowed)

Grading Policy:
90-100: A  80-89: B  70-79: C  60-69: D  Less than 60: F FA,FN

Late Work Policy & Make-up Procedures for Missed Assignments and Work:
Make up and later work must be approved by the instructor on a case by case basis

Attendance Policy
Students are expected to attend all scheduled classes and laboratories. Absences in a course may affect a student’s final grade. The student is responsible for all assigned work in the course regardless of excused or unexcused absences. Tardiness may also affect a student’s final grade.

In online courses, attendance is signaled by logging on to the D2L/NS Online shell, participating as prompted (e.g., responding to an instructor’s email, posting to a discussion board) and/or completing and submitting assignments. Campus closures do not affect attendance and assignment completion in online courses.

Grading Scale:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Percentage Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td></td>
</tr>
</tbody>
</table>
According to NSCC policy, if a student fails a course, but has not officially withdrawn from the course, and her/his last date of attendance is before the last date to withdraw (*use date appropriate to your section*), the student will receive a grade of FA (i.e., “Failure for Attendance Reasons”).

*(While the above statement should appear in all syllabi, faculty are encouraged to make additional statements or provide examples that would clarify the policy for students.)*

FN
An FN is awarded to students who never attended class.

**Technology Statement**
Nashville State's classes are considered to be web-enhanced. Faculty have an expectation that students will use a computer and the Internet to complete assignments, engage in online discussions, and access various course materials through D2L/NS Online course shells. Computers are available for student use at each campus during campus open hours.

**D2L/NS Online and myNSCC**
It is students’ responsibility to check D2L/NS Online course shells for all enrolled courses and myNSCC, including student email, on a regular basis. These are the official communication channels between the college and students, who are responsible for the information communicated through those channels. D2L/NS Online contains specific course information and myNSCC contains information important for other purposes.

**ADA Compliance Statement**
Nashville State complies with the Americans with Disabilities Act (ADA). If you require accommodations for any courses in which you are enrolled, contact the Access Center at 615.353.3741 or 615.353.3721, or e-mail accesscenter@nscc.edu. If you are registered with the Access Center and require an alternate format for the textbook and other course materials, please contact the Access Center.

**Classroom Misconduct**
Nashville State Community College has a zero-tolerance policy for disruptive conduct in the classroom. Students whose behavior disrupts the classroom will be subject to disciplinary measures. Please review the Nashville State Student Code of Conduct policy. Please be aware that children are not allowed in class or to be left unattended on campus.

**Academic Misconduct**
Any form of academic dishonesty, cheating, plagiarizing, or other academic misconduct is prohibited. Students are responsible for understanding and abiding by the Academic Misconduct Policy in the Nashville State Student Code of Conduct. In addition to other possible disciplinary measures that may be applied through regular college procedures as a result of academic dishonesty, the instructor has the
authority to assign an “F” or a “zero” for the exercise, paper, or examination, or to assign an “F” for the course. Students may appeal through the appropriate college grade appeal procedures.

(Each instructor will outline his/her expectations for academic integrity and provide individualized information about consequences for academic misconduct.)

**Academic Early Alert System**
Nashville State Community College uses an Early Alert System to let students know of a faculty member’s concern in one or more of these academic areas: lack of attendance, lack of classroom participation, late or missing assignments, and/or poor performance on assignments/tests. *Please note that Early Alerts do not affect a student’s academic standing. If you receive an Early Alert email, please see your instructor and your academic advisor as soon as possible.

**RAVE Emergency Alert System**
Emergency events can happen at any time and Nashville State Community College wants to be able notify students if and when they occur. For this reason, all students have been enrolled in the free RAVE alert system. If you have not already done so, please log in at [https://www.getrave.com/login/nscc](https://www.getrave.com/login/nscc) to confirm and update your contact information and notification preferences. It is critical that your information be correct so that you will receive any emergency notifications. Your RAVE Username is your NSCC email address. If you've never received an email from RAVE with your password, or if you need to reset your password, select “Forgot your password?” and a new password will be emailed to you. Should the RAVE system indicate “user not found”, select Register and create your own RAVE account.

**Inclement Weather & Campus Closings**
Nashville State will use the RAVE alert system to send a text message to students, staff, and faculty about adjusted hours of operation and/or closings at individual campuses. All students should check the Nashville State web site home page at [www.nscc.edu](http://www.nscc.edu) for announcements on campus closures, which may vary from campus to campus. Campus closures will also be announced on local television stations. Students should use their own best judgment in determining whether to report to campus during inclement weather when classes are not cancelled.

Even when campuses are closed, students are still responsible for completing all assigned work. When classes are cancelled, faculty will post online assignments and any additional instructions in the D2L/NS Online course shell. Check D2L/NS Online for a message from your instructor regarding your online assignment requirements. Faculty have discretion over adjusting deadlines or due date for assignments, but students are responsible for completing all assigned work by the due date established by the instructor.

**Class Cancellation Policy**
If the class is cancelled, the instructor will notify all students by posting in the D2L/NS Online course, e-mailing through D2L/NS Online, and/or by posting a sign on the classroom door. In the event of class cancellation, students must access D2L/NS Online to complete classwork and the assignment that will be posted in the course D2L site.
