Course Description:
Web-based course introducing the OTA student to the medical terms commonly used in the provision of healthcare services.

Prerequisite(s): Level 2 placement in English and Reading, BIOL 2010

This is a semi-self-paced course. The course is divided into four modules. Students will progress at their own pace through each module. Each module has a deadline by which all exams within that module must be completed.

Course Objectives:
The student, upon completion of this course, will be able to:

- Demonstrate competence in basic computer use.
- Analyze and define medical terms.

**METHOD OF COURSE DELIVERY AND EVALUATION**

- Medical Terminology for OT is a NSCC Online based, self-directed, semi-self paced course. Students will complete modules of topics within a certain time frame. Within each module, students complete material at their own pace.
- Web based supplements to the text are available on D2L. Supplements include chapter summaries, audio and visual word representation as well as practice quizzes. The quizzes are not graded, and may be taken multiple times.
- Students will be required to complete 14 online tests that address medical terminology knowledge.
