Cooperative Education work experience in Industrial Process Control Technology and can be an important addition to a student's formal classroom work. Co-op courses, if appropriate, may substitute for technical courses up to nine credit hours with the prior approval of the department head. All Co-op work must have department head approval. The Career Services Office will provide the correct course numbers. Students participating in Cooperative Education are encouraged to work a minimum of two terms.

NCCER assessment: A student seeking the Maintenance Technician concentration with four (4) or more years of experience as a millwright or pipefitter may choose to take the National Center for Construction Education and Research (NCCER) skills assessment in place of certain coursework as listed above. For more information concerning NCCER assessment, contact Danny Sensing at
