

Class,

I hope everyone is having a great summer. Attached is your class schedule for fall 2020. Please note, this is your schedule as of today. This schedule is subject to change in response to Nashville State's response to the COVID 19 situation. Students will be notified of any changes to schedule.

All lectures will be held via zoom during the time slots noted on your schedule. Labs will be held on campus during time slots on schedule.

The following are expectations for zoom lecture participation:

- Attendance is mandatory. The attendance policy will be followed.
- Faculty must be able to see each student during the entire zoom lecture via web/computer camera.

Lab participation: At this time, labs are scheduled to be held on campus. Again, this is subject to changes based on Nashville State's response to COVID 19 situation.

As stated in program admission requirements regarding technology access:

The program requires that students be proficient in the use of a computer. Students should be prepared to access and submit documents through Desire2Learn, use PowerPoint and be proficient with email. The program utilizes an online testing format. Students should have access to a personal computer, and/or identify alternative computer resources, such as the computer labs at NSCC.

***Each student must acknowledge receipt of this email by Wednesday, July 22nd to Shari Shields at shari.shields@nsc.edu
