

STUDENT EVALUATION OF FIELDWORK SITE

Level I and Level II evaluations of fieldwork sites are required of all students. Learning how to appropriately give and effectively receive feedback is a vital skill for any professional. The Student Evaluation process is one method that the OTA Program assists student in this skill development process. The Evaluation must be completed at the conclusion of the Fieldwork experience and shared with the Fieldwork Supervisor. It is recommended that the student review their evaluation of the site at same time that they receive their performance evaluation.
