

## **HEALTH AND LIABILITY INSURANCE POLICY**

A health form and health examination must be completed before beginning the OTA Program. Proof of current health insurance is required at the beginning of each academic year enrolled in the program.

Professional liability insurance must be purchased during orientation, and before the beginning of each academic year enrolled the program.

Proof of current health and liability insurance is required for participation in both Level I and Level II fieldwork. It is the student's responsibility to inform the program of any changes to the insurance policies, and to provide copies of cards as information changes.

If a student fails to obtain and/or maintain health and liability insurance, they will not be allowed to participate in Level I and/or Level II experiences until appropriate insurance is obtained. If proof of insurance is not obtained in a timely manner for fieldwork participation, the student may be assigned a grade of "F" for the course. See course failure policy for additional details.
