

LIFELONG LEARNING

The OTA Department urges you to participate in the pursuit of continuing education. AOTA, TOTA and other companies sponsor continuing education workshops throughout the year. Workshops may be listed in publications such as O.T. Advance, O.T. Practice, and/or the AOTA website: www.AOTA.org.

NSCC offers courses which add to the enrichment of the COTA, especially in their Special Course offerings. Suggestions for workshops and courses are encouraged by the OTA Department. The Continuing Education Division can provide information concerning Special Courses.
