1. The Implementation committee met on September 8. The committee is sketching out a five-year plan and working on rubrics for a reading/writing evaluation mode.
2. The Best Practices Committee lost two members over the summer. It was agreed not to add any new members at this time.
3. The Best Practices Committee submitted an annotated list of Critical Thinking Resources.
4. Dale Rogers asked about the purpose of the website. Dr. Weed stated that the purpose is to inform the campus about the QEP. Two websites are being developed: one for faculty and one for students. Dale and Linda Lyle will work together on the website information.
5. Michelle Adkerson obtained useful information at the International Critical Thinking Conference but stated that it's unlikely we'll be able to obtain consultants from there.
6. Michelle Adkerson will call and set up a meeting with Barry Stein from Tennessee Tech.

The next meeting will be October 9, 2006
