Two Homework Projects are assigned this semester. These are long, comprehensive problems which are meant to reinforce and solidify your grasp of certain types of accounting procedures and concepts. **The Homework Projects are to be completed by hand using hard copy working papers.** The purpose of this requirement is that students generally have a greater comprehension of the complete accounting cycle by processing the steps by hand.

**Project 2:**
Project 2 is based on Problem 7-5A. The instructions for this problem are found on pages 300-301 of the Fundamental Accounting Principles textbook. Follow the problem instructions to complete this project.

**Working Papers:**
Print the working papers for this project by clicking the Project 2 Working Papers link under the *Projects* heading in your course D2L *Content*.

**Preparation:**
Using the hard copy working papers, prepare your problems in pencil. Your work should be neat and legible.

**Submitting Your Project:**
This project will be submitted in hard copy (on the working papers) by mailing the project to the following address:

Laurie Swanson  
Business Technologies Department  
Nashville State Tech  
120 White Bridge Road  
Nashville, TN  37209

The project may also be dropped off at my office (C-204H) or at the Testing Center. Be sure your name is on your work.

**Due Date:**
Project 2 must be received no later than March 30, 2009. If you mail your project, factor the mail time into your schedule.

**Grading:**
This project will be graded on a 100 point scale based on completeness, accuracy, and neatness.

**Grade Impact:**
This is the first of two homework projects that together comprise 5% of your overall course grade. No project grades will be dropped--a failure to submit a homework project will result in a grade of -0-.
