I. Course description
An in-depth study of the fundamental concepts of chemistry. Topics include matter and measurement, atomic and molecular structure, nomenclature, formulas and equations, stoichiometry, aqueous reactions, gases, thermochemistry, periodic trends, molecular geometry, and chemical bonding.

Credit: 4 credits, 3 class hours, 3 lab hours
Prerequisite: Completion of Learning Support competencies in reading and writing, and MATH 1000. (MATH 1130 College Algebra highly recommended)

II. Course Outcomes
Upon successful completion of this course, the students will:

• Identify and define the steps involved in the scientific method.
• Explain matter, its properties, its transformations, and its two classifications based on composition and state.
• Define the concepts of precision, accuracy, significant figures, and scientific notation.
• Apply the rules of chemical nomenclature, writing formulas, balancing equations, writing electron configuration, and periodic trends.
• Utilizing the concepts of mass and mole, apply dimensional analysis and algebraic equations to solve stoichiometry and gas law calculations.
• Describe the rules for determining Lewis Structures, VSEPR structures, and polarity for various molecules and compounds.

Lecture Topics
• Matter
• Measuring
• Atomic Theory and Atomic Structure
• The Periodic Table
• Nomenclature
• Stoichiometry
• Aqueous Reactions
• Gases
• Thermochemistry
• Electronic Structure
• Periodic Properties
• Chemical Bonding
• Molecular Geometry
Lab Topics (which may include):

• Measurements
• Density of Liquids/Solids
• Separation of a Mixture
• Formula Writing and Nomenclature
• Mole Ratio
• Balancing Chemical Equations & Stoichiometry
• Gravimetric Analysis
• Acid-Base Titrations
• Heat and Energy Transfer
• Hess’s Law
• Atomic Spectroscopy
• Gas Law Relationships
• Paper Chromatography/Colorimetry
• Molecular Shapes

III. Required Materials

AND

• *Experiments for General Chemistry I – Laboratory Manual for CHEM 1110*, 6th Edition
  (Freely available in the NSOnline course shell)

• Scientific Calculator

IV. Course Policies

Attendance Policy
Each Instructor will provide information regarding his/her attendance policy. Failure to attend class will result in a final course grade of “FA” or “FN” (see explanation below) depending on the individual instructor’s course policy.

FA = failure, attendance-related (unofficial withdrawal) Last recorded date of attendance required

FN = failure, never attended class (unofficial withdrawal)

Assessment and Grading: ***Subject to change at the instructor’s discretion

Methods of Evaluation:

The expected outcomes for the course will be assessed by various techniques which may include in-class assignments, group discussions, class participation, group work, quizzes, exams, oral presentations, written reports, and a comprehensive final examination.

Grading scale:
A: 90 – 100%  B: 80 – 89%  C: 70 – 79%  D: 60 – 69%  F: 0 – 59%

Safety issues
The instructor will go over new regulations regarding safety in lab classes. You must turn in a signed copy of the regulations, and you will have a copy to keep.

Student Communication Channels
It is the student’s responsibility to check NS Online (D2L) and MyNSCC email on a regular basis. These are the official communication channels between the college and students. Students are responsible for the information communicated through those channels. NS Online contains specific course information and MyNSCC contains information important for other purposes.
V. ADA Statement
Nashville State complies with the Americans with Disabilities Act. If you wish to request any special accommodations for any courses in which you are enrolled, contact the Students Disabilities Office. Such Services must have proof of documentation that is not over 3 years old. Contact the Disabilities Coordinator at 353-3721.

VI. Classroom Behavior
Nashville State Community College has a zero tolerance policy for disruptive conduct in the classroom. Students whose behavior disrupts the classroom will be subject to disciplinary sanctions.

The instructor has primary responsibility for control over classroom behavior and maintenance of academic integrity. He/she can order temporary removal or exclusion from the classroom of any student engaged in disruptive conduct or in conduct which violates the general rules and regulations of the College.

Disruptive behavior in the classroom may be defined as, but is not limited to, behavior that obstructs or disrupts the learning environment (e.g., offensive language, harassment of students and professors, repeated outbursts from a student which disrupt the flow of instruction or prevent concentration on the subject taught, failure to cooperate in maintaining classroom decorum, etc.), the continued use of any electronic or other noise or light emitting device which disturbs others (e.g., disturbing noises from beepers, cell phones, palm pilots, lap-top computers, games, etc.).

Please be aware that children are not allowed in class or unattended on campus.

Academic Dishonesty (Honor Code)

Any form of academic dishonesty, cheating, plagiarizing, or other academic misconduct is prohibited. “Plagiarism may result from: (1) failing to cite quotations and borrowed ideas, (2) failing to enclose borrowed language in quotation marks, and (3) failing to put summaries and paraphrases in your own words” (A Writer’s Reference 331). Academic dishonesty may be defined as, but is not limited to, intentionally trying to deceive by claiming credit for the work of another person, using information from a web page or source without citing the reference, fraudulently using someone else’s work on an exam, paper, or assignment, recycling your own work from another course, purchasing papers or materials from another source and presenting them as your own, attempting to obtain exams/materials/assignments in advance of the date of administration by the instructor, impersonating someone else in a testing situation, providing confidential test information to someone else, submitting the same assignment in two different classes without requesting both instructor’s permission, allowing someone else to copy or use your work, using someone else’s work to complete your own, altering documents, transcripts or grades, and forging a faculty/staff member’s signature. In addition to other possible disciplinary sanctions that may be imposed through regular college procedures as a result of academic dishonesty the instructor has the authority to assign an “F” or a “Zero” for the exercise, paper, or examination or to assign an “F” for the course.

NOTE: This syllabus is meant simply as a guide and overview of the course, the topics, the objectives, the general assessments, and some standard college policies. Some items are subject to change or revision at the instructor’s discretion. Each instructor will further clarify their criteria for grading, classroom procedures, attendance, exams and dates, etc.
