Nashville State Community College  
Business, Applied Arts & Technologies Division  
Computer Information Systems  

Master Course Syllabus  

CIS 2370 Advanced Java  
3 Credits  
2 Class Hours, 2 Lab Hours  

An introduction to the Java 2 Enterprise Edition (J2EE) architecture and its Web services technology. Topics include database concepts and the Java data object (JDBC/OC4J), Java and XML, Java ServerPages (JSP), and Enterprise JavaBeans (EJB). Oracle’s JDeveloper integrated development environment will be used to create applications using the above concepts as well as Business Components for Java (BC4J) features. Prerequisite(s): CIS 2270 with a grade of “C” or higher  

Instructor Information:  
Name:  
Email:  
Office Phone:  
Office Location:  
Office Hours:  

Textbook and Other Materials:  
ISBN 978-0071602380  
Reference Materials: None  
Supplies: None  

Course Outcomes:  
Upon successful completion of this course, students should be able to:  
- Define and contrast the structure and principles of the J2EE multi-tier architecture.  
- Design and implement applications using JDBC objects and embedded SQL statements.  
- Develop programs that use the features and capabilities of the JDeveloper integrated development environment.  
- Create applications using Oracle’s Business Components for Java (BC4J).  
- Execute the processes necessary in JDeveloper to design and create Java ServerPages.  

Course Assessments:  
The following performance assessments will be used to demonstrate students’ understanding, knowledge and skills:
• Students will complete tests to demonstrate their individual competency in using JDeveloper’s features used in the hands on exercises presented in the textbook and assigned projects. Specific criteria for evaluation of these tests are included in the grading policy shown below.

• Students will individually design and implement projects within required specifications based on established criteria for performance. This criteria will be based on established criteria that include all necessary components used in the solution of the project.

• Students’ ability to perform procedures and implement processes required in JDeveloper to develop client/server applications and Java ServerPages (JSP) will be measured through a series of assigned projects completed individually within required specifications. Criteria for evaluation of performance will include accurate and efficient application of technical skills and knowledge as well as appropriate behaviors and attitudes. For example, students will be observed to determine the degree to which they ask relevant questions, remain open to ideas, think critically, adapt what they know to new information, approach work with inventiveness and enthusiasm, use precise language when communicating, set and meet deadlines, and so on. Observation tools such as checklist or matrix will be used to document findings. Participation points will result from these observations.

Grading Policy
• All projects will have an assigned deadline
• No points are given for projects turned in after the assigned deadline.
• To receive full credit, all projects must:
  o Be correct and meet the required specifications when turned in for credit.
  o Follow the generally accepted coding standards, syntax, and naming conventions of the Java language and JDeveloper
  o Use descriptive names for defined variables, methods, etc
  o Include appropriate documentation (comments)
  o Follow the indentation rules for good structured code
• Turn in each project in a folder/manila envelope containing the following:
  o A source code listing of the completed project
  o A 3.5” diskette/cd with a directory/folder containing ALL the files necessary to compile and run the project using Oracle’s JDeveloper
• Students are expected to do their own work on assigned projects
• Tests will consist of short answer (fill in the bank) questions, true/false questions, and short coding problems

Grading Scale:
Grades will be determined as follows (Average = Total points earned / Total points):

<table>
<thead>
<tr>
<th>Grade</th>
<th>Average</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>89.5 - 100.0</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td>79.5 - 89.4</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>69.5 - 79.4</td>
<td></td>
</tr>
<tr>
<td>D</td>
<td>59.5 - 69.4</td>
<td></td>
</tr>
</tbody>
</table>
Attendance Policy
A student is expected to attend all scheduled classes and laboratories. Each instructor will formulate an attendance policy and provide it on the course syllabus. Absences are counted from the first scheduled meeting of the class, and it is the responsibility of each student to know the attendance policy of each instructor in whose class he/she is enrolled. If a student is absent from a class, he/she should give an advanced explanation to the instructor. Absences in a course may affect a student’s final grade. The student is responsible for all assigned work in the course regardless of excused or unexcused absences. Tardiness may also affect a student’s final grade.
Failure to attend class will result in a final course grade of “FA” or “FN” (see explanation below) depending on the individual instructor’s course policy.
FA= failure, attendance-related (unofficial withdrawal) Last recorded date of attendance required.
FN= failure, never attended class (unofficial withdrawal)

Student Communication Channels
It is the student’s responsibility to check D2L and MyNSCC email on a regular basis. These are the official communication channels between the college and students. Students are responsible for the information communicated through those channels. D2L contains specific course information and MyNSCC contains information important for other purposes.

Early Warning System
Nashville State Community College has implemented an Early Warning System to notify students via e-mail about academic problems such as poor classroom attendance, poor performance on assignments/tests, poor communication skills, late/missing assignments, and/or lack of classroom participation. Please note that Early Warning Alerts do not affect a student’s academic standing.

ADA Compliance Statement
Nashville State complies with the Americans with Disabilities Act. If you wish to request any special accommodations for any courses in which you are enrolled, contact the Student Disabilities Office at 353.3721.

Classroom Misconduct
Nashville State Community College has a zero tolerance policy for disruptive conduct in the classroom. Students whose behavior disrupts the classroom will be subject to disciplinary sanctions. Please consult your Student Handbook for more specific details.
The instructor has primary responsibility for control over classroom behavior and maintenance of academic integrity. He/she can order temporary removal or exclusion from the classroom of any student engaged in disruptive conduct or in conduct which violates the general rules and regulations of the College.
Disruptive behavior in the classroom may be defined as, but is not limited to, behavior that obstructs or disrupts the learning environment (e.g., offensive language, harassment of students and professors, repeated outbursts from a student which disrupt the flow of instruction or prevent concentration on the subject taught, failure to cooperate in maintaining classroom decorum, etc.), the continued use of any electronic or other noise or light emitting device which
disturbs others (e.g., disturbing noises from beepers, cell phones, palm pilots, lap-top computers, games, etc.).
Please be aware that children are not allowed in class or unattended on campus.

Academic Dishonesty (Honor Code)
Any form of academic dishonesty, cheating, plagiarizing, or other academic misconduct is prohibited. "Plagiarism may result from: (1) failing to cite quotations and borrowed ideas, (2) failing to enclose borrowed language in quotation marks, and (3) failing to put summaries and paraphrases in your own words (A Writer’s Reference 331). Academic dishonesty may be defined as, but is not limited to, intentionally trying to deceive by claiming credit for the work of another person, using information from a web page or source without citing the reference, fraudulently using someone else’s work on an exam, paper, or assignment, recycling your own work from another course, purchasing papers or materials from another source and presenting them as your own, attempting to obtain exams/materials/assignments in advance of the date of administration by the instructor, impersonating someone else in a testing situation, providing confidential test information to someone else, submitting the same assignment in two different classes without requesting both instructor’s permission, allowing someone else to copy or use your work, using someone else’s work to complete your own, altering documents, transcripts or grades, and forging a faculty/staff member’s signature.
In addition to other possible disciplinary sanctions that may be imposed through regular college procedures as a result of academic dishonesty the instructor has the authority to assign an “F” or a “Zero” for the exercise, paper, or examination or to assign an “F” for the course. Students may appeal through the appropriate college grade appeal procedures.

Inclement Weather Policy
In the event of an inclement weather event, check the Nashville State web site home page at www.nscc.edu for announcements on campus closures. Campus closures will also be announced on local television stations (channels 2, 4, 5, and 17).
When classes are cancelled, an online assignment will be posted in NS Online. Check your NS Online email for a message from your instructor regarding your online assignment requirements. Even though classes may be cancelled, some areas, i.e. Testing Center, may be open. However, you should check before commuting to campus.
The Vice President for Academic Affairs and the Director of Security are responsible for cancellation decisions during an inclement weather event for the Nashville State main campus and the Southeast campus. Cookeville, Waverly, and Dickson Campus Directors will make class cancellation decisions based on conditions in their respective areas. Decisions about class cancellations are based on actual conditions, not forecasts. The perspective used for making decisions is that of the college as an employer, not as a K-12 institution. Students should use their own best judgment in determining whether to report to campus during inclement weather when classes are not cancelled.
NOTE: This syllabus is meant simply as a guide and overview of the course. Some items are subject to change or may be revised at the instructor’s discretion. Each instructor will further clarify their criteria for grading, classroom procedures, attendance, exams and dates, etc. on his/her course syllabus.
