Nashville State Community College  
Business, Applied Arts & Technologies Division  
Computer Information Systems

Master Course Syllabus

CIS 2400 Intro to .NET Programming
3 Credits  
2 Class Hours, 2 Lab Hours

An introduction to the Visual Basic and C# .Net programming languages. Topics include basic concepts of programming, problem solving, and programming logic, and design techniques of an object-oriented language. Also includes types, classes, inheritance, Arrays, collections, delegates, events and debugging. Prerequisite(s): CIS 2270 with a grade of "C" or higher.

Instructor Information:
Name:  
Email:  
Office Phone:  
Office Location:  
Office Hours:

Textbook and Other Materials:
Textbook:  
Murach’s C# 2010 by Joel Murach  
ISBN: 1890774596

Supplies:  
Microsoft Internet Explorer (6.0 or higher)  
Visual Studio .NET (2010 version)  
Windows 2000 Professional or Windows XP Professional (or higher)  
Microsoft Internet Information Server (5.1 or higher)

For some chapters, you will require additional software:  
Microsoft SQL Server Express Edition – a database program  
Microsoft Access – a database program

Course Outcomes:
Upon successful completion of this course, students should be able to:
• Create a simple Windows Forms application.  
• Create and use data types and variables.  
• Implement the use of generally accepted coding standards and syntax used in Visual Studio 2010 in both Visual Basic and C#.  
• Explain the fundamentals of object-oriented programming.  
• Implement debugging and exception handling in a Visual Studio 2010 application.  
• Create basic Web applications.
Course Assessments:
The following performance assessments will be used to demonstrate students' understanding, knowledge and skills:

• Students will complete a series of tests to demonstrate their individual competency in the application of Visual Basic and C# statements and concepts used in the assigned exercises. Specific criteria for evaluation of these tests are included in the grading policy shown below.

• Students will individually design and implement several programming exercises within required specifications based on established criteria for performance. Criteria for performance will be based on established criteria that include all necessary components used in the solution of the exercise, as detailed in the grading policy below.

• Students' ability to perform procedures and implement processes in the Visual Studio will be measured through a series of assigned exercises completed individually within required specifications. Criteria for evaluation of performance will include accurate and efficient application of technical skills and knowledge as well as appropriate behaviors and attitudes. For example, students will be observed to determine the degree to which they ask relevant questions, remain open to ideas, think critically, adapt what they know to new information, approach work with inventiveness and enthusiasm, use precise language when communicating, set and meet deadlines, and so on. Participation points may result from these observations.

Grading Policy:
• All programming exercises will have an assigned deadline
• No points are given for programs turned in after the assigned deadline.
• To receive full credit, all programming exercises must:
  o Be correct and meet the required specifications when turned in for credit.
  o Follow the generally accepted coding standards and syntax of the Visual Basic and C# languages
  o Include appropriate documentation (comments)
• Turn in each exercise via website containing the source code listing of the completed exercise
• Students are expected to do their own work on assigned individual exercises

Grading Scale:
Grades will be determined as follows (Average = Total points earned / Total points):

<table>
<thead>
<tr>
<th>Grade</th>
<th>Average</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>89.5 - 100.0</td>
<td></td>
</tr>
<tr>
<td>B</td>
<td>79.5 - 89.4</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>69.5 - 79.4</td>
<td></td>
</tr>
<tr>
<td>D</td>
<td>59.5 - 69.4</td>
<td></td>
</tr>
<tr>
<td>F</td>
<td>&lt; 59.5</td>
<td></td>
</tr>
</tbody>
</table>

Attendance Policy
A student is expected to attend all scheduled classes and laboratories. Each instructor will formulate an attendance policy and provide it on the course syllabus. Absences are counted
from the first scheduled meeting of the class, and it is the responsibility of each student to know
the attendance policy of each instructor in whose class he/she is enrolled. If a student is absent
from a class, he/she should give an advanced explanation to the instructor. Absences in a
course may affect a student’s final grade. The student is responsible for all assigned work in the
course regardless of excused or unexcused absences. Tardiness may also affect a student’s
final grade.
Failure to attend class will result in a final course grade of “FA” or “FN” (see explanation below)
depending on the individual instructor’s course policy.
FA= failure, attendance-related (unofficial withdrawal) Last recorded date of attendance
required.
FN= failure, never attended class (unofficial withdrawal)

Student Communication Channels
It is the student’s responsibility to check D2L and MyNSCC email on a regular basis. These are
the official communication channels between the college and students. Students are
responsible for the information communicated through those channels. D2L contains specific
course information and MyNSCC contains information important for other purposes.

Early Warning System
Nashville State Community College has implemented an Early Warning System to notify
students via e-mail about academic problems such as poor classroom attendance, poor
performance on assignments/tests, poor communication skills, late/missing assignments, and/or
lack of classroom participation. Please note that Early Warning Alerts do not affect a student’s
academic standing.

ADA Compliance Statement
Nashville State complies with the Americans with Disabilities Act. If you wish to request any
special accommodations for any courses in which you are enrolled, contact the Student
Disabilities Office at 353.3721.

Classroom Misconduct
Nashville State Community College has a zero tolerance policy for disruptive conduct in the
classroom. Students whose behavior disrupts the classroom will be subject to disciplinary
sanctions. Please consult your Student Handbook for more specific details.
The instructor has primary responsibility for control over classroom behavior and maintenance
of academic integrity. He/she can order temporary removal or exclusion from the classroom of
any student engaged in disruptive conduct or in conduct which violates the general rules and
regulations of the College.
Disruptive behavior in the classroom may be defined as, but is not limited to, behavior that
obstructs or disrupts the learning environment (e.g., offensive language, harassment of students
and professors, repeated outbursts from a student which disrupt the flow of instruction or
prevent concentration on the subject taught, failure to cooperate in maintaining classroom
decorum, etc.), the continued use of any electronic or other noise or light emitting device which
disturbs others (e.g., disturbing noises from beepers, cell phones, palm pilots, lap-top
computers, games, etc.).
Please be aware that children are not allowed in class or unattended on campus.
**Academic Dishonesty (Honor Code)**

Any form of academic dishonesty, cheating, plagiarizing, or other academic misconduct is prohibited. "Plagiarism may result from: (1) failing to cite quotations and borrowed ideas, (2) failing to enclose borrowed language in quotation marks, and (3) failing to put summaries and paraphrases in your own words (A Writer’s Reference 331). Academic dishonesty may be defined as, but is not limited to, intentionally trying to deceive by claiming credit for the work of another person, using information from a web page or source without citing the reference, fraudulently using someone else’s work on an exam, paper, or assignment, recycling your own work from another course, purchasing papers or materials from another source and presenting them as your own, attempting to obtain exams/materials/assignments in advance of the date of administration by the instructor, impersonating someone else in a testing situation, providing confidential test information to someone else, submitting the same assignment in two different classes without requesting both instructor’s permission, allowing someone else to copy or use your work, using someone else’s work to complete your own, altering documents, transcripts or grades, and forging a faculty/staff member’s signature.

In addition to other possible disciplinary sanctions that may be imposed through regular college procedures as a result of academic dishonesty the instructor has the authority to assign an “F” or a “Zero” for the exercise, paper, or examination or to assign an “F” for the course. Students may appeal through the appropriate college grade appeal procedures.

**Inclement Weather Policy**

In the event of an inclement weather event, check the Nashville State web site home page at www.nscc.edu for announcements on campus closures. Campus closures will also be announced on local television stations (channels 2, 4, 5, and 17).

When classes are cancelled, an online assignment will be posted in NS Online. Check your NS Online email for a message from your instructor regarding your online assignment requirements.

Even though classes may be cancelled, some areas, i.e. Testing Center, may be open. However, you should check before commuting to campus.

The Vice President for Academic Affairs and the Director of Security are responsible for cancellation decisions during an inclement weather event for the Nashville State main campus and the Southeast campus. Cookeville, Waverly, and Dickson Campus Directors will make class cancellation decisions based on conditions in their respective areas. Decisions about class cancellations are based on actual conditions, not forecasts. The perspective used for making decisions is that of the college as an employer, not as a K-12 institution. Students should use their own best judgment in determining whether to report to campus during inclement weather when classes are not cancelled.

**NOTE:** This syllabus is meant simply as a guide and overview of the course. Some items are subject to change or may be revised at the instructor’s discretion. Each instructor will further clarify their criteria for grading, classroom procedures, attendance, exams and dates, etc. on his/her course syllabus.
