

**Nashville State Community College
School of STEM
Biology Department**

Master Course Syllabus

(Instructor will Select and Modify Term Below)

Year Spring/Summer/Fall Term – Full 15-Week Term

Year Spring/Summer/Fall Term – First 7-Week Term

Year Spring/Summer/Fall Term – Second 7-Week Term

BIOL 1010 – Introduction to Biology

The purpose of the syllabus is to inform you how this course is organized, what the expectations are, and how you will be graded. In addition, there is important information about how the college will operate during severe weather and how the college will communicate with you. The syllabus is not a contract. Instead, it is meant to help you succeed in this course. If any of the content changes during the course term, you will be notified.

Course information:

Course Title: BIOL 1010 – Introduction to Biology

Credits: 4

Class Hours: 3 lecture and 3 lab hours

Course Description:

An introduction to biology course. Topics include cell structure and function, organic molecules and energy pathways, genetics, evolution, and the principles of ecology. This course does not fulfill the science requirement for biology majors. Credit for BIOL 1110 and BIOL 1010 may not be used together to satisfy the general education natural science requirement. **Prerequisite(s):** Level 2 placement in English and Reading.

Course Delivery Method

(Each instructor will show the delivery method for their section from list below.)

- **On-Campus:** Course meets at a designated Nashville State Campus.
- **Hybrid:** Course uses a blended format of online instruction where most classes require on-campus meetings. These courses have a designated Nashville State Campus with listed days, times, and room numbers.

- **Online:** Course is fully online (**asynchronous**) and has no scheduled on-campus meeting requirements.
- **Virtual:** Course meets live via Zoom at a set date and time (**synchronous**).

Required Textbook:

Textbook: *Biology: Concepts and Investigations* by Hoefnagels 360 Day Access, 5th ed. (2021)

This required textbook is a Digital Course Material (see definition below) with access available through D2L when the class begins.

ISBN: 9781265393823

Optional Print Upgrade: Loose leaf text may be purchased as an upgrade through the [bookstore's website](#) as the "PU" (print upgrade) option.

Once you have registered for your courses, you should make sure you have the correct textbook and materials for each course. Before courses begin, you can do this by looking up your courses on the [bookstore's website](#) (<https://www.bkstr.com/nscstore/shop/textbooks-and-course-materials>) using your A# or by entering your course information. If you are registered with the Access Center and need an alternate format for the textbook and other course materials, please contact the Access Center at 615.353.3363 or accesscenter@nsc.edu.

Digital Course Materials: These ensure you pay less for your course materials and have easy access through D2L throughout the term. When you registered for this course, the charge for these materials appeared on your account. If you decide you do not want to purchase the course materials embedded in NS Online, you can opt out of the program **until the end of the second week of classes**. If you opt out, you will be responsible for purchasing the required course materials on your own. For more information, please visit www.nsc.edu/dcm.

Honors Option: Honors credit is available in some classes. If you are interested in participating in the Honors Program, please see your instructor within the first four weeks of class.

Course Outcomes:

At the end of the term, this is what you should know and/or be able to do:

- Describe the basic characteristics of life.
- Apply the scientific method.
- Explain the structure of atoms, chemical bonding, properties of water, and the groups of organic molecules associated with life.
- Distinguish prokaryotic from eukaryotic cells by describing cell organelles and their functions and by differentiating types of cell division and their significance.
- Explain the energy requirements of cells, the central role of ATP, the generation of ATP during cellular respiration, the production of food by photosynthesis, and the role of enzymes in controlling chemical processes in cells.

- Explain and apply the principles of heredity as first developed by Gregor Mendel and extended by others, both in regard to chromosome behavior and to the statistical ratios of traits among offspring.
- Understand the chemical and physical structure of the gene, its operation in the synthesis of polypeptides, and its significance in genetic engineering.
- Describe the evidence for evolution and illustrate the basic tenets of population and species evolution.
- Explain interactions between organisms and their environment as energy and matter flows through ecosystems and discuss environmental problems and their solutions.

Course Competencies:

The following are general education competencies intended to support the course outcomes:

- Apply scientific thought processes to a range of situations.

Topics to Be Covered:

- Chemistry, Organic Chemistry, The Cell, Energy & Enzymes, Cellular Respiration, Photosynthesis, Cell Division, Meiosis, DNA Synthesis, Transcription, Protein Synthesis, Viruses and Jumping Genes, Genetic Engineering, Recombinant, DNA, Genetics, Evolution, Microevolution, Macroevolution, and Ecology

Course Assessments: We will use the following assessments to demonstrate your understanding, knowledge, and skills:

Exams

- The exams may include, but are not limited to, multiple choice, short answer, essay, matching, fill-in-the-blank, true-false or picture/diagram drawing and labeling.
- Exams will count as 55-60% of the final course grade.

Laboratory Activities

- Laboratory activities include, but are not limited to, lab exercises, virtual lab activities, or lab practicals.
- Laboratory activities will count as 20-25% of the final course grade.

Class Activities

- Class activities may include, but aren't limited to, quizzes, discussion boards, class presentations, group work, homework, model or diagram labeling, lab specimen/model ID or essay questions.
- Class activities will count as 15-20% of the final course grade.

Grading Policy:

- Exams make up 55-60% of the final course grade
- Laboratory Activities make up 20-25% of the final course grade
- Class activities make up 15-20% of the final course grade

Grading Scale:

Letter Grade	Percentage Range
A	90% or higher
B	80-89%
C	70-79%
D	60-69%
F	Below 60%

FA

If you stop attending class or if you are in an online class and stop submitting assignments, but do not turn in a withdrawal form by the deadline, you are still enrolled in class. You will be given a grade of FA, which means you have failed due to not attending class and not completing your assignments. Please refer to the current academic calendar available on the Nashville State web site, looking for the date that indicates it is the “Last Day to Earn F for Attendance (FA).” If you stop attending your course after this date, you will receive an F.

FN

An FN is awarded if you have never attended your course or done any of the work in an online course.

Late Work Policy & Make-up Procedures for Missed Assignments and Work:

Attendance Policy

General Policy

- *Absences in a course may affect your final grade.*
- *Tardiness may also affect your final grade.*
- *You are responsible for all work/tests that occur during any missed course session(s) regardless of reason(s) for absence.*
- *If you are not well enough to attend a course session (class), you must notify the instructor as soon as possible before the scheduled course time.*
 - *If you are unable to notify an instructor before the scheduled course time, you must contact the instructor as soon as reasonably possible.*
- *If you have an unavoidable conflict with a scheduled course session, you must notify the instructor before the course session.*
 - *If you are unable to notify an instructor before the scheduled course time, you must contact the instructor as soon as reasonably possible.*

Instructor’s Policy

The attendance policy for this course is: *(Each instructor will add their attendance policy)*

For financial aid purposes, **attendance** is measured by participation in the course. Instructors can determine your level of participation in several ways. Some of those ways are:

- continued attendance

- participation in on-ground or virtual class sessions
- participating in D2L as prompted
- responding to an instructor's email
- posting to a discussion board
- completing and submitting assignments

Technology Statement

- All classes at the College are web enhanced. "Web enhanced" means that components of the course, such as assignments and online discussions, may be located online in the class D2L/NS Online course shell and used in the course, even if the course meets in a classroom on ground.
- You must have access to a computer and an internet connection to complete assignments, engage in online discussions, and access various course materials through D2L/NS Online course shells.
- You may also be required to use free video conferencing platforms (examples: Zoom, Teams, etc.) for course sessions and meetings.
- You will be responsible for appropriate dress while on video. This means that you are expected to dress as if you were in a classroom.
- You will be responsible for a distraction free environment while on video. This means that the professor and others in the course should not be able to hear noise in your home, such as cell phones, TVs, or barking dogs. The best way to do this is to keep yourself on "mute" until you need to speak.
- You will be responsible for making sure your background is neutral. Keep in mind that students and professors come from all around the world, and you are all a part of our community. Therefore, please avoid having images in your background that may be offensive to your classmates.
- Certain publisher materials, such as textbook figures, may not work on cellphones and may require a laptop or a tablet.
- If you have questions or concerns regarding access to a computer or internet resources, please contact your instructor. Additional information is available on the [access to internet and technology website](#).

Computer Labs

Computers are available for all Nashville State students to use at each campus during open hours. Open computer lab availability may vary from campus to campus.

You should check the NSCC website for current hours of operation.

D2L/NS Online and myNSCC

It is your responsibility to check your email in **both** D2L/NS Online course shells and your @my.nsc.edu (student email) on a regular basis. These are the official communication channels between the college and you. You are responsible for the information communicated through these email channels. D2L/NS Online emails contain specific course information and @my.nsc.edu emails contain important information from college offices, such as Financial Aid.

ADA Compliance Statement

If you need accommodations due to a disability, please do not hesitate to reach out to our Access Center. Disabilities for which you can receive accommodations include documented physical, emotional, and/or learning conditions. Nashville State is committed to supporting your success, and we encourage you to get assistance if needed. If you require accommodations for any courses in which you are enrolled, contact the Access Center at 615.353.3363 or e-mail accesscenter@nsc.edu.

Classroom Misconduct

Disruptive conduct is not allowed in the classroom. Disruptive conduct is any behavior that prevents students from learning and interferes with the ability of the instructor to teach. This may change from course to course; therefore, your individual instructors will give you guidance on what qualifies as “disruptive conduct” in their courses. Please review the [Nashville State Student Code of Conduct policy](#). Please be aware that children are not allowed in class or to be left unattended on campus.

Academic Misconduct

You have started this academic journey to prepare for a future career. Because of this, it is important that you learn the materials being presented in your courses. For this reason, cheating, in any form, robs you of your opportunity to learn and master the material that will enable you to succeed in that future career. Nashville State has a clear [Academic Misconduct Policy](#) that you are expected to follow. In addition, your instructors will clarify what Academic Misconduct looks like and the consequences for violations in each course that you take. The instructor has the authority to assign an “F” or a “zero” for such violations or for the term grade.

Academic Early Alert System

If you are not doing well in your course, your instructor may send you an Early Alert through your @my.nsc.edu email. This email will go to your academic advisor and Student Success advisor, as well. If you get an Early Alert, contact your instructor immediately. Instructors send these when they want to help you figure out how to get extra support to pass the course. An Early Alert does not mean that you have already failed the course. Rather, it means you are in danger of failing the course if you do not change your learning strategy. Please use an Early Alert to your advantage and as an opportunity to improve your grade.

RAVE Emergency Alert System

You can log in to this free alert system to receive text messages about emergencies related to NSCC campuses through the [RAVE app \(https://www.getrave.com/login/nsc\)](https://www.getrave.com/login/nsc). The instructions for this are listed below.

- Your RAVE Username is your NSCC email address.
- If you've never received an email from RAVE with your password, or if you need to reset your password, select “Forgot your password?” and a new password will be emailed to you.
- Should the RAVE system indicate “user not found”, select Register and create your own RAVE account.

Student Wellness

Your well-being is important to us. With this in mind, the college has several resources available to provide support when needed:

- [Free tutoring](#) can assist you beyond the classroom to help you make the most of your college education.
- [These resources](#) include NSCC email, scheduling, online courses, textbooks, tech check out and support, computer labs on campuses, academic advising, financial advising, COVID-19 information and procedures on campuses.
- [Services](#) that help with bus passes, food, childcare, textbooks, housing, financial counseling, personal counseling, suicide prevention, health insurance.

Equity Statement

Nashville State Community College strives to ensure that each student receives what that student needs to be successful, with goals of success beyond the classroom. We understand and practice ideals of equity and inclusion for our students by embracing a full spectrum of experiences, viewpoints, and intellectual approaches in order to overcome barriers to success.

Inclement Weather & Campus Closings

You get notices about campus closings in these places: text messages from RAVE and [the Nashville State website](#).

Even when campuses are closed, you are still responsible for completing all assigned work. Check D2L/NS Online for a message from your instructor so you do not miss important assignments and due dates, which may change due to the campus closure.

Class Cancellation Policy

Our instructors post messages about cancelling classes in the [D2L/NS Online](#) course shells and/or on the classroom door on campus. These messages can be found in the News and Content section or the Email tab in the online shell. Please check these to be sure that you take advantage of opportunities for learning and points toward your grade.
