Program Notes:

- Students enrolled in a technical certificate program are considered non-degree students.
- In all cases, qualified students must meet entry-level standards for the courses in which they enroll, be able to complete assignments, and be able to read and write at the required level.
- All courses apply to the Associate of Applied Science degree in Administrative Professional Technology (Business Office Pathway) once the admissions requirements for the college have been met.

It is the student's responsibility to ensure that all requirements for the certificate are met. It is best to work out a systematic approach to taking the required courses, because not all courses may be offered every semester, especially the second year courses. Please work with your advisor when scheduling courses.

To receive your certificate you must complete and file an Intent to Graduate Form. The form can be obtained from the Records Office or downloaded from the Records Office website.
