Turnitin Feedback Studio is an assessment and review tool that integrates with D2L's Assignment Dropbox, which allows exchange of files between the instructor and course users. Once students have submitted files to the Assignment Dropbox, Turnitin Feedback Studio will allow instructors to streamline and expedite the grading and reviewing process.

Creating Turnitin Feedback Studio-compatible Dropboxes

When creating Assignment Dropboxes for which you intend to use Turnitin Feedback Studio, you must activate this setting when creating the dropbox.

1. From the Evaluation group select Assignment Dropbox:

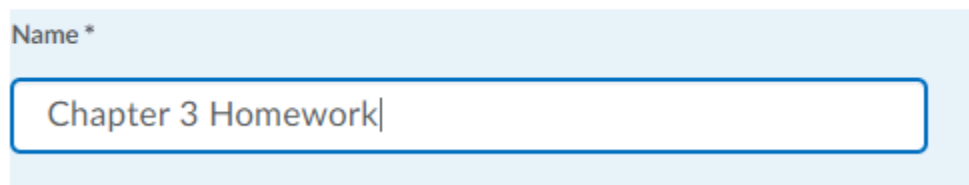

2. From the Folder List page, click the New Folder button:

3. Set Assignment settings in the "Properties" tab:
    a. In the "Name" textbox, type a name for your dropbox. For clarity and alignment, it is recommended that the assignment, the corresponding dropbox, and the corresponding gradebook item all have the same title:
4. When creating the dropbox, after you have input your desired properties, restrictions, and objectives, click the "Turnitin" tab:
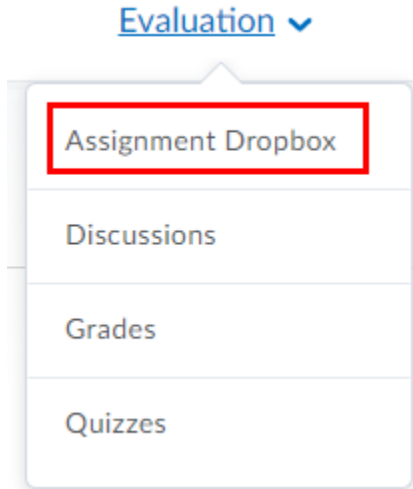

Properties	Restrictions	Objectives	**Turnitin®**

5. Click the "Enable Turnitin for this folder checkbox":

☑ Enable Turnitin for this folder

Entering Turnitin Feedback Studio

To view student submissions:

1. From the Evaluation tab, select "Assignment Dropbox":

2. Click the link for the folder from the list that contains the submissions you wish to grade:

	Folder	Total Files	Unread Files	Flagged Files	Due Date
☐	No Category				
☐	Homework 2 ⌄ 👤	1	0	0	
☐	Chapter 3 Homework ⌄ 🔭	0	0	0	

Note that dropboxes with Turnitin enabled appear with filebox/binocular icon.

Clicking the link for the folder will direct you to the "Folder Submissions" page where you will be able to see each student's submission. You may sort submissions either by user or by files by selecting the desired tab at the top of the section:
